

U-shaped lock for photovoltaic panels

What is a clenergy PV-ezrack solar roof?

The Clenergy PV-ezRack SolarRoof(TM) is designed for residential and commercial applications. This system allows installation on pitched and flat roofs. It withstands wind speeds up to 88 metres per second through its robust design and high-quality materials.

How do I mount solar panels on a roof?

Simple, lightweight solar PV mounting system for just about any roof. SnapNrack's Ultra Rail is a sleek, lightweight rail solution for mounting solar modules on just about any roof. The entire system is a snap to install utilizing new Ultra Rail Mounts that include snap-in brackets for attaching rail.

What types of roofs can PV-ezrack solarroof fit?

With a full range of roof hooks and brackets,PV-ezRack SolarRoof is suitable for most roofing types,including pitched tile roofs,metal roofs,concrete roofs and even slate roofs. Strict quality control in accordance with ISO 9001 over materials and finished products ensures optimum strength and long life for your installation.

What makes solarroof a good roof hook?

Corrosion resistance is achieved through anodised structural grade aluminium and stainless steelcomponents. The unique and innovative Z-module technology enables a surprisingly quick and easy installation. SolarRoof has high-quality stainless steel roof hooks which are suitable for most types of tiled roofs.
