Does Onyx Solar offer Photovoltaic Glass?

At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any building's design. We offer a wide range of building integrated photovoltaic glass solutions that include, but are not limited to:

What is PV glass?

PV Glass spans opaque to 50-60% light transmittance, fitting various applications. Customize in color, thickness, size, shape, texture, and technology for your needs. Boost your project with Onyx Solar's for both financial and environmental gains.

Who can benefit from Integrated Photovoltaic Glass Solutions?

World-leading companies such as Apple, Novartis, Samsung, and Coca-Cola along with other international institutions such as the Government of Canada, the Helsen Bergen Hospital, or the National Petroleum Technology Center in Saudi Arabia, already benefit from our integrated photovoltaic glass solutions.

Where can Photovoltaic Glass be used?

Our photovoltaic glass has already been installed in a wide variety of buildings in more than 350 projects worldwide. Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions. Dubai Frame United Arab Emirates

What is vitro TM building-integrated photovoltaic (BIPV) glass?

PITTSBURGH, March 15, 2021 - Vitro Architectural Glass (formerly PPG Glass) announced that it has launched Solarvolt(TM) building-integrated photovoltaic (BIPV) glass modules, which combine the aesthetics and performance of Vitro Glass products with CO<sub>2</sub>-free power generation and protection from the elements for commercial buildings.

What is hidden PV glass?

Customize your projects with our HIDDEN PV glass, seamlessly blending solar cells within for an invisible, stylish finish. Perfect for ventilated facades and spandrel areas, this c-Si technology offers a variety of colors like anthracite, polar white, sand, and more. Ideal for eco-conscious, aesthetically driven projects.

Solar panels are assembled from solar cells. According to the type of solar cell, it can be mainly divided into two types. 1. Crystalline Solar Panel, which is assembled from polysilicon solar cells of monocrystalline solar ...
