

# What are the photovoltaic bracket manufacturers in the south

Who is solarframe?

Established in October 2012 to fill a gap in affordable and professional solar roof mounting solutions in the Garden Route area, SolarFrame quickly stood out as a leading manufacturer of solar PV mounting systems in South Africa.

What are the different types of solar support mounting solutions?

Our products are divided into three main categories namely Roof Mounted, Ground Mounted, and Solar Carport Solutions. With the need for a localised manufacturer of Solar Support Mounting Structures, SunMount strives to be a dedicated provider of quality, cost effective mounting solutions throughout the African region.

How many production bases does solar power company have?

The company operates three major production bases, encompassing nearly 50,000 square meters of production area. Its main business includes various photovoltaic fixed ground mounting structure, distributed mounting structure, tracking photovoltaic mounting structure, building mounting structure, and distributed power station development, etc.

How many MW of solar PV systems are there?

The company proudly boasts over 100 MW of solar PV systems installed with their rooftop mounting structures, which cater to rail, direct-mount, and terraced mount installations, and are available with HDG or Z275 pre-galvanised coatings to meet various climate needs.

Does South Africa have a strong solar energy sector?

South Africa's renewable energy sector is seeing a remarkable increase, mainly driven by the nation's strong solar energy production. With one of the highest levels of sunlight globally, South Africa stands out as a key player in solar energy generation.

Can versol mount a photovoltaic power station?

Versol's V-Basic mounting system can be applied to photovoltaic power station in different terrain and environment. The product range includes a wide range of models and styles, and is highly adaptable.

Stability and simplicity, no matter the size of your solar PV array. Our innovative solar module racking structures are designed to install quickly and provide secure mounting for modules from nearly all manufacturers. With pole, roof, and ...
